ADMIT UNIT

Your Partner in Global Trade Success

SERVICE PACKAGES • V4.1

From business priorities to practical results.

Business Implementation • Export Market Development
Export Labeling & Packaging • Institutional & Supplier Programmes

Client pitch & delivery scope

17 October 2026

What ADMIT UNIT delivers

Business implementation and market development with accountable, testable results.

01

Completed work

We turn agreed client records and buyer requirements into working files, routines and commercial actions.

Scope • Owner • Completion test

02

Visible evidence

Checks, assumptions, missing inputs and unresolved decisions are recorded rather than hidden.

Scope • Owner • Completion test

03

Editable handover

The named client owner receives usable deliverables, a practical test and a defined acceptance step.

Scope • Owner • Completion test

OUR PROMISE Practical completion—not an open-ended consultancy retainer.

Choose the result you need

Three core service lines, plus defined export labeling and packaging support.

BUSINESS IMPLEMENTATION

Organize costs, quotations, customer follow-up or buyer information.

Fixed jobs from USD 300

EXPORT MARKET DEVELOPMENT

Validate one market, prepare export offers, develop buyers and coordinate cases. Labeling and packaging are separately scoped.

Export stages and packaging quoted by scope

INSTITUTIONAL & SUPPLIER

Deliver cohort implementation or supplier onboarding against defined requirements.

Fixed project quotation

START SMALL Each service is independently purchasable; no requirement to buy the full ADMIT GROUP chain.

A simple path from request to delivery

The work begins only after the scope, payment and input requirements are agreed.

1

Fit call

20-minute call to clarify the need

2

Written scope

Outputs, owners, price and test

3

Activation

Accepted scope + payment + inputs

4

Implementation

Build, review, check and trial

5

Acceptance

Editable files, handover and feedback

We confirm the available start date, exact input set and client decision-maker before activation.

DEFAULT Remote delivery; one working language (Khmer or English). Visits and bilingual duplication are quoted separately.

Business Implementation: three fixed jobs

An implementation deliverable—not a generic advisory subscription.

Product Cost & Quotation Setup

USD 300 — 10 business days

Up to 5 products; editable costing and quotation workbook.

Customer Follow-up Setup

USD 450 — 15 business days

Up to 30 accounts, 60 opportunities and a weekly follow-up routine.

Buyer Information Pack

USD 750 — 15 business days

Buyer-facing materials, evidence index and requirements response.

PAYMENT 50% at activation; 50% at acceptance. All amounts USD before applicable tax.

Product Cost and Quotation Setup

Defined deliverables. Clear decisions. Practical handover.

WHO THIS IS FOR

For one operating business, one currency basis and up to five existing products or pack variants.

WHAT ADMIT UNIT DELIVERS

- Editable workbook: product costs, quotation calculations and assumptions / instructions.
- Populate costs from supplied records, with visible sources and unresolved inputs.
- Test 2 quotations: standard and changed-price / quantity / delivery-cost scenario.
- 45-minute user handover, unresolved-input list and one consolidated revision.

USD 300 • 10 business days

CLIENT SUPPLIES / APPROVES

Up to 10 files / 50 pages or agreed 100-row spreadsheet; product specifications, costs, quantities, selling prices and delivery charges.

COMPLETION TEST Scoped products entered; both calculations work; a nominated user can repeat the steps.

Customer Follow-up Setup

Defined deliverables. Clear decisions. Practical handover.

WHO THIS IS FOR

For one sales team (up to 3 users) handling existing accounts and enquiries.

WHAT ADMIT UNIT DELIVERS

- Editable tracker for up to 30 client-supplied accounts and up to 60 opportunities.
- Clear status, contact route, owner, next action, due date and result fields.
- 3 reusable messages: enquiry response, quotation follow-up and repeat-order follow-up.
- Weekly review checklist, 2 × 45-minute staff sessions and one revision.

USD 450 • 15 business days

CLIENT SUPPLIES / APPROVES

Agreed customer records, contact permissions, account owners, enquiry status and approved communication rules.

COMPLETION TEST Active items have an owner and next action (or explicit gap); staff complete a 5-record trial.

Buyer Information Pack

Defined deliverables. Clear decisions. Practical handover.

WHO THIS IS FOR

For one supplier, one identified buyer, one destination market and one product family (up to 5 products).

WHAT ADMIT UNIT DELIVERS

- Buyer-facing company and product information document of up to 8 pages.
- Evidence index covering up to 15 supplied documents and unresolved checks.
- Requirements response matrix for up to 25 buyer checklist items.
- Editable files + shareable PDF; 60-minute handover, buyer-question exercise and revision.

USD 750 • 15 business days

CLIENT SUPPLIES / APPROVES

One buyer checklist, approved company details, product specifications, images, claims, packaging, capacity and evidence (up to 15 files / 75 pages).

COMPLETION TEST Every scoped requirement has a supported response or a clearly owned information gap.

One export process. Four selectable stages.

The four stages remain selectable. Labeling and packaging are a separate, optional export workstream.

01

VALIDATE

Export Opportunity Validation

Proceed / prepare / defer

02

PREPARE

Export Offer Preparation

Approved buyer-ready offer

03

DEVELOP

Buyer Development Campaign

Documented outreach + pipeline

04

COORDINATE

Sample & Quotation Coordination

Tracked buyer cases + next action

Stage 1–2: fixed project quote • Stage 3: monthly campaign quote • Stage 4: defined case quote

BUY THE STAGE You may enter at the appropriate stage once its prerequisites and scope are agreed.

Stage 1 — Export Opportunity Validation

Reference scope: 1 destination market, 1 buyer segment, up to 5 products.

WHO THIS IS FOR

Validate whether a defined export opportunity merits further investment. No buyer outreach is included.

WHAT ADMIT UNIT DELIVERS

- Focused opportunity brief (up to 6 pages) with dated sources and key buyer requirements.
- Indicative landed-cost and commercial-assumption worksheet from approved costs.
- Priority / dependency register showing what must be resolved next.
- 60-minute decision review and one consolidated revision.

Fixed quote • 2–3 weeks*

CLIENT SUPPLIES / APPROVES

Product / cost records, target market, segment, capacity, approved claims and readily available compliance evidence.

COMPLETION TEST Written proceed / prepare / defer decision, named next actions and next-stage budget basis.

Stage 2 — Export Offer Preparation

Reference scope: the same market and product family; one defined buyer checklist.

WHO THIS IS FOR

Prepare consistent, client-approved commercial materials for a target buyer.

WHAT ADMIT UNIT DELIVERS

- Company / product offer of up to 8 pages and a supporting evidence index.
- Export quotation template with 2 scenarios for approved cost, payment and delivery assumptions.
- Sample preparation checklist and explicit unresolved approval / evidence items.
- 60-minute user handover and one consolidated revision.

Fixed quote • 2–4 weeks*

CLIENT SUPPLIES / APPROVES

Up to 15 evidence documents; approved specifications, prices, claims, capacity, lead times and trading assumptions.

COMPLETION TEST Internally consistent offer and quote; owner can use template; unresolved conditions are flagged.

Stage 3 — Buyer Development Campaign

One market, one buyer segment and up to 5 products per monthly cycle.

WHO THIS IS FOR

Research agreed organizations, perform authorized outreach and document the pipeline. An approved offer is a prerequisite.

WHAT ADMIT UNIT DELIVERS

- Up to 10 researched organization records with source, date and fit rationale.
- Up to 10 approved contact actions; pipeline tracking up to 30 active organizations.
- 2 approved message templates in first cycle; 2 × 30-minute pipeline reviews.
- Monthly action, feedback and next-step report with evidence-based stages.

Fixed monthly quotation

CLIENT SUPPLIES / APPROVES

Approved export offer, feasible prices and supply, relevant readiness evidence, outreach authorization and external-cost budget.

COMPLETION TEST Agreed research and attempts logged; stages evidenced; next actions assigned. Replies and sales not guaranteed.

Stage 4 — Sample & Quotation Coordination

Reference scope: up to 2 buyer sample / quotation cases over 4 weeks.

WHO THIS IS FOR

Coordinate agreed buyer requests without taking away the exporter's commercial decision authority.

WHAT ADMIT UNIT DELIVERS

- Case tracker for each buyer request, with requirements, approvals and next dates.
- Coordination of approved sample information or quotations for up to 2 cases.
- Up to 10 approved buyer contact actions across both cases.
- 2 × 30-minute reviews and handover of case status, documents and open decisions.

Defined case quotation

CLIENT SUPPLIES / APPROVES

Buyer request, approved quote / sample data, client decision-maker, commercial terms and any approved external spending.

COMPLETION TEST Contracted actions completed or reconciled; remaining decisions and owners documented.

Export development: clear gates and boundaries

Work progresses only when the required conditions for the next stage are in place.

1 Before validation

Define the market, products, segment, records and decision owner.

2 Before an offer

Approve product claims, costs, capacity, commercial assumptions and evidence.

3 Before buyer outreach

Have a viable approved offer, supply readiness and authorized contact actions.

4 Before sample / quotation

Approve terms, costs, sample spending and buyer-case responsibilities.

Separately scoped: export label reviews, packaging design, testing, translation, freight and technical services.

IMPORTANT Buyer meetings, orders and sales are not guaranteed. The exporter retains all commercial authority.

A supporting workstream for the export journey

Labeling and packaging are individually selectable, not mandatory parts of stages 1–4.

MARKET VALIDATION

Select a destination and examine buyer requirements before spending on market-specific packaging.

LABEL & PACKAGING

Buy design plus specialist review, or a review of existing artwork, for one named destination.

EXPORT OFFER

Use client-approved product facts and reviewed artwork in the offer; resolve material claim gaps.

BUYER COORDINATION

Track buyer feedback, sample requests and revised artwork without mixing the contracted scopes.

NO FORCED BUNDLE Buy only the services you need. Reusable evidence is credited in quotes to avoid duplicated work.

Export labeling & packaging: two clear offers

For pre-packaged food exports from Cambodia • 15-minute labeling fit call • destination-specific scope.

DESIGN + REVIEW

Export Packaging Design & Labeling Compliance

From USD 950 • per product / destination

New packaging direction, 2 design revision rounds, specialist label review, corrected files and print PDF.

REVIEW AN EXISTING LABEL

Export Labeling Compliance for Existing Packaging

From USD 450 • per product / destination

Written specialist review, correction instructions and one revised-artwork specialist check.

SCOPE UNIT

One product, one named country and one packaging format

One agreed artwork version

Intended channel, buyer brief, language and specialist reviewer confirmed before activation.

NO DOUBLE BILLING The full design package includes one specialist destination review; it is not charged again.

Export Packaging Design & Labeling Compliance

New or replacement food packaging • one product • one named export destination.

WHO THIS IS FOR

Cambodian food producers creating new packaging for a defined export market and buyer brief.

WHAT ADMIT UNIT DELIVERS

- Label-facts file: ingredients, supplied nutrition, claims, source evidence and open gaps.
- One packaging direction using existing brand assets; 2 consolidated design revisions.
- Named specialist review for one market, agreed corrections and one revised-label recheck.
- Editable artwork, print PDF to supplied printer spec, copy sheet and versioned handover.

From USD 950 • 15–20 business days

CLIENT SUPPLIES / APPROVES

Ingredients, evidence, approved claims, brand files, format and printer dieline, destination, buyer brief and final sign-off.

COMPLETION TEST Client-approved versioned artwork and print file; specialist record and unresolved items handed over.

Labeling Compliance for Existing Packaging

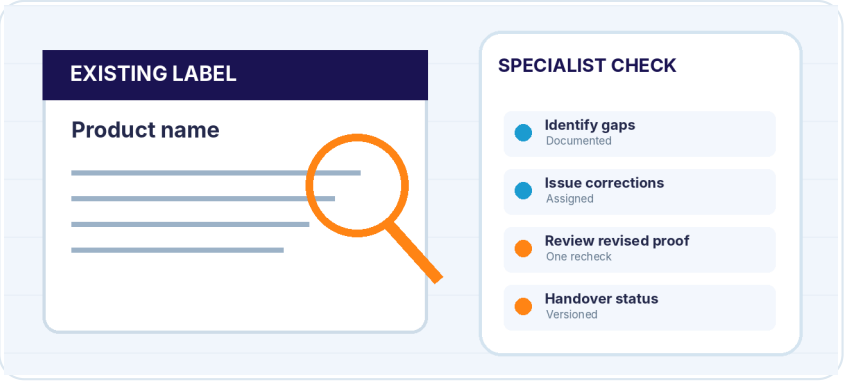

Review your current food label for one named destination; redesign is a separate service.

WHO THIS IS FOR

For exporters with existing artwork, one formulation, one label version and one destination.

WHAT ADMIT UNIT DELIVERS

- Export brief and evidence check: product, destination, sales channel and buyer requirements.
- One named specialist review report or marked-up label with specific corrective actions.
- Client or existing designer applies the correction list; missing evidence has named owners.
- One revised-proof check submitted within 30 calendar days; versioned closeout and issue status.

From USD 450 • 7–10 business days

CLIENT SUPPLIES / APPROVES

Current artwork, ingredients and nutrition evidence, claims, buyer brief, destination and approved corrected proof.

COMPLETION TEST Written review, responsibility for corrections, one recheck and open issues recorded.

Five steps from brief to usable label files

Work begins when scope, payment, product evidence and specialist availability are confirmed.

1

Scope & collect

Product + market, buyer brief and evidence

2

Design / inspect

New artwork direction or existing label

3

Specialist review

Written market review with corrections

4

Correct & recheck

Agreed changes + one specialist recheck

5

Approve & hand over

Client sign-off; versioned outputs

Design target: 15–20 business days. Existing-label first review: 7–10 business days, then 3–5 for recheck.

IMPORTANT The schedule excludes client delays, testing, outside approvals and unapproved additional rounds.

Who reviews, approves and takes responsibility?

Technical review is documented but does not equal official approval or guaranteed entry.

1 ADMIT UNIT

Coordinates the agreed design, specialist review, corrections, files and handover.

2 Specialist reviewer

Records product, country, label version, scope, date, findings and limitations.

3 Client / exporter

Confirms product facts, claims, final artwork, commercial language and printing authorization.

4 Printer / authorities

Printer approves physical production specifications. Registrations and official permissions are separate.

Not included: laboratory analysis, certified translation, new brand strategy, tooling, prototypes, printing or government fees.

REVIEW LIMIT Specialist findings do not guarantee retailer acceptance, customs clearance or regulatory approval.

What we need from the exporter

Incomplete information is flagged; assumptions and unresolved approvals are not hidden.

PRODUCT FACTS

Formulation, ingredients, pack size, producer identity and approved product details.

FOR NEW PACKAGING

Brand assets, format dimensions, printer dieline and print-file specifications.

EVIDENCE & CLAIMS

Nutrition values, shelf life, allergens, origin, certifications and substantiation for claims.

MARKET / BUYER

Destination, sales channel, importer or buyer requirements, languages and one feedback owner.

CLIENT SIGN-OFF The client remains responsible for truthful facts, approved wording, claims and the final print authorization.

What is not included in starting fees

External work is quoted and approved before it is ordered or performed.

TESTS & AUTHORITY	Laboratory and nutrition analysis, certification or registration applications, official fees.
ARTWORK & PRODUCTION	New logos, brand strategy, packaging engineering, prototypes, manufacture and print runs.
MARKETS & VARIANTS	Extra destination countries, new formulations, certified translations and substantial redesign.
REVIEW ROUND LIMITS	Additional reviews, major changes, language adaptations and external testing are separately priced.

NO GUARANTEE Review is based on specified files, evidence and country. It is not authority approval or retailer acceptance.

Enterprise programmes for institutions

Project-based implementation for development partners, associations and enterprise-support organizations.

DIAGNOSE

Diagnostic & Implementation Planning

10 enterprises • 4–6 weeks

Priority profiles, 90-day plans and cohort baseline.

IMPLEMENT

Business Implementation Cohort

10 enterprises • 3 months

Shared tool, common clinic, enterprise sessions and sponsor reporting.

EXPORT

Export Market Development Cohort

10 enterprises • 3–6 months

One shared market with readiness-based buyer activity allocation.

PROJECT BASIS Fixed quotation based on cohort size, readiness, intensity, geography, language and reporting.

Diagnostic & Implementation Planning

Reference: 10 enterprises over 4–6 weeks.

CONTRACTED DELIVERABLES

- One sponsor inception meeting and focused intake / record review per enterprise.
- Ten priority profiles and 90-day implementation plans with evidence status.
- Reconciled cohort baseline and costed recommendation for practical support.
- Sponsor validation meeting and one consolidated revision.

COMPLETION STANDARD

For each participant: reviewed priority, owner, feasible next action and measurement basis. Incomplete and withdrawn cases are visible.

NOT INCLUDED Technical audits or enterprise implementation unless separately contracted.

Business Implementation Cohort

Reference: 10 enterprises over 3 months, one shared implementation theme.

MONTHLY DELIVERY RHYTHM

- One 2-hour common clinic each month.
- One 60-minute individual session per enterprise each month.
- Shared working tool, enterprise action register and follow-through.
- One sponsor progress review and report per month.

TWO MODES OF IMPLEMENTATION

GUIDED

Enterprise completes tool; ADMIT UNIT coaches and reviews once.

COMPLETED

ADMIT UNIT populates agreed records, tests the tool and hands it over.

Output assessment includes practical trials: missing participant inputs are reported rather than marked as success.

COMPLETION Agreed tools checked and delivered; repeat use recorded where evidence exists.

Export Market Development Cohort

Reference design: 10 enterprises • 1 shared market • 3–6 months.

PROGRAMME DESIGN

- One product family per participating enterprise.
- Participants grouped into preparation, buyer testing and coordination needs.
- Shared research, preparation support, coaching and contact allocation rules.
- Sponsor reporting distinguishes preparation, attempts, interest, quotes and orders.

Buyer contact volumes depend on readiness and fit. Not every enterprise is assigned equal outreach.

SAFETY GATE Only enterprises with approved, eligible offers enter buyer activity; others receive agreed preparation work.

Buyer-Funded Supplier Development

A purchasing organization commissions structured onboarding of its selected suppliers.

REFERENCE PROGRAMME

5 suppliers • 6–8 weeks

- One buyer checklist of up to 25 requirements.
- One product family per supplier.
- One agreed information file or practical working tool per supplier.
- Consolidated completion matrix, open gaps and buyer review.

Fixed project quotation after scope review

Buyer retains supplier-selection authority

WHO PAYS The commissioning buyer pays; supplier contributions, if any, are disclosed before enrolment.

Supplier development: four delivery steps

A structured cycle that separates evidence preparation from certification and purchasing approval.

01	**Agree requirements**	Buyer approves checklist, permissions, rules, scope and completion tests.
02	**Review suppliers**	45-minute intake per supplier; checklist gap register and immediate blockers.
03	**Implement tools**	One agreed information file or working tool per supplier; one revision and 45-minute handover.
04	**Report and transfer**	Completion matrix, unresolved register, owners / dates and buyer review meeting.

EVIDENCE STATUS Each requirement is evidenced, unresolved, not applicable, or awaiting buyer / expert decision.

Optional review and monthly updates

Choose only the additional support your business needs. No minimum monthly term.

ONE-TIME REVIEW

USD 200

Business Priority Review

- 45-minute discussion; review up to 10 files / 50 pages.
- 2-page priority brief, up to 3 actions and 30-minute decision session.
- Within 10 business days of full payment and inputs.

RECURRING FILE SUPPORT

USD 150 / month

Monthly Record Update

- 1 existing workbook / tracker, up to 30 changed or new rows per cycle.
- Updated file, exception note, 20-minute review and factual correction.
- Returned within 5 business days of complete inputs; no automatic renewal.

USD 200 review credit: fully applied to one USD 300 / 450 / 750 implementation job booked within 30 days for the same scope.

Where should your business start?

For export labeling or packaging, select the separately quoted service described in slides 16–18.

YOUR IMMEDIATE NEED	RECOMMENDED ENTRY	HOW TO BUY
Costs and prices are inconsistent	**Product Cost & Quotation Setup**	**USD 300 fixed**
Enquiries are being lost	**Customer Follow-up Setup**	**USD 450 fixed**
A named buyer needs documents	**Buyer Information Pack**	**USD 750 fixed**
One export market is under consideration	**Stage 1: Opportunity Validation**	**Fixed project quote**
You have an approved offer and need buyers	**Stage 3: Buyer Development Campaign**	**Monthly quote**
You coordinate a cohort or supplier base	**Institutional / Supplier Programmes**	**Project quote**
You cannot identify the top priority	**Business Priority Review**	**USD 200 one-time**

Delivery windows and activation rules

Clocks start after the accepted scope, required payment and complete inputs—not on enquiry date.

10 business days	Product Cost Setup; Priority Review
15 business days	Customer Follow-up; Buyer Information Pack
2–3 weeks*	Stage 1 export opportunity validation
2–4 weeks*	Stage 2 export offer preparation
Monthly cycle	Stage 3 approved buyer development
4-week case window	Stage 4 sample / quotation coordination
6–8 weeks	Buyer-funded supplier programme reference

*** Export dates depend on complete inputs. Labeling design/review has separate specialist-confirmed delivery windows.**

What clients need to provide

Fast, accurate delivery depends on a usable input set and timely decisions.

ALL CLIENTS

One responsible decision-maker; complete agreed records; written scope and required payment.

IMPLEMENTATION

Product cost information, existing enquiry records or buyer requests—depending on the package.

EXPORT

Product details, target market, approved claims, capacity and prices; for labeling, artwork, ingredient evidence and buyer brief.

INSTITUTION / BUYER

Participant or supplier register, requirements, permissions, resources and sponsor decision owner.

CLIENT APPROVAL The client approves prices, product claims, trading terms, communications, external costs and final commercial decisions.

Scope discipline protects the result

We agree the completion test before work begins; unresolved items remain visible.

1 **Scoped outputs**

Deliver only agreed products, accounts, cases, documents or participant counts.

2 **Practical testing**

Check agreed calculations, user actions, file access or evidence mapping.

3 **Feedback window**

Clients submit consolidated feedback within 5 business days of delivery.

4 **Correction rights**

One in-scope revision is included; ADMIT UNIT errors are corrected without charge.

5 **Changes in scope**

Extra products, markets, records or deliverables need approved repricing and dates.

6 **Incomplete evidence**

Pause, revise the scope or clearly label any limited output; silence is not acceptance.

HANDOVER Paid client deliverables are editable; the client can keep using them internally after completion.

What is outside the standard scope?

Separate expert services, external spending and commercial success are not silently included.

BUSINESS SETUP	Reconstructing bookkeeping, tax advice, inventory software, prospect research, daily outreach.
BUYER MATERIALS	Certification, laboratory testing, issuer verification, legal opinions and certified translation unless separately contracted.
EXPORT SUPPORT	Samples, freight, customs clearance, independent verification and paid data; packaging and label review require their own scope.
INSTITUTION PROGRAMMES	Independent impact evaluation and specialist technical audits unless separately contracted.

NO GUARANTEES Profits, buyers, meetings, orders, export eligibility, certification or purchasing decisions cannot be guaranteed.

Transparent terms, before you commit

Core service fees below. Separate export packaging and labeling fees follow.

SERVICE	PRICE BASIS	PAYMENT STRUCTURE
Business Implementation	USD 300 / 450 / 750	50% activation • 50% acceptance
Business Priority Review	USD 200 once	Full payment before delivery
Monthly Record Update	USD 150 / month	Paid in advance • no auto-renewal
Export stages 1 & 2	Fixed scoped quote	Normally 50% / 50% unless quote states milestones
Export campaigns	Monthly scoped quote	Advance payment • written renewal
Institutional / supplier	Fixed project quote	Typical 40% / 40% / 20%; signed terms prevail

APPROVAL FIRST USD before applicable tax. Travel, technical specialists, software and external fees need prior written approval.

Two labeling offers. Clear payment milestones.

Starting prices are for one food product, one destination, one pack format/size and one artwork version.

NEW PACKAGING + REVIEW

FROM USD 950

Export Packaging Design & Labeling Compliance

- One design direction, 2 revision rounds, destination specialist review and a recheck.
- 15–20 business-day target after complete inputs, payment and reviewer confirmation.
- 50% to activate • 30% with reviewed artwork and correction record • 20% before editable handover.

EXISTING LABEL + REVIEW

FROM USD 450

Export Labeling Compliance for Existing Packaging

- One initial specialist report, consolidated actions and one corrected-proof check.
- 7–10 days initial review; 3–5 more for included recheck. Revised proof within 30 calendar days.
- 50% to activate • 50% on initial review and correction-list delivery.

USD before tax. Specialist review and schedule are confirmed in the written quote. V3 service proposal is for review.

Clear remedies and client data ownership

Your agreement specifies how scope changes, cancellation, corrections and information are handled.

BEFORE ACTIVATION

Unused client payments are refundable if the engagement is cancelled before work starts.

AFTER ACTIVATION

Cancellation is reconciled against delivered milestones and approved unavoidable external commitments.

ADMIT UNIT DELIVERY DELAY

Agree a correction date. If correction fails, credit or refund the undelivered portion.

CONFIDENTIALITY & RIGHTS

Client data access and sharing are agreed at onboarding; public case studies need separate consent.

Service hours: Monday–Friday, 9:00–17:00 Cambodia time, excluding public holidays.

OUR COMMITMENT Client receives paid-for editable outputs; ADMIT UNIT retains reusable methods and blank templates.

GET A PROPOSAL

Start with one clear service request

A free 20-minute fit call helps define the right scope and deliverable.

BUSINESS

The current problem, product / sector, records available and your preferred timeline.

EXPORT

Product family, destination, buyer status and deadline; for labeling, product facts, artwork status, format and target country.

PROGRAMME

Sponsor / buyer, cohort size, sector, locations, desired outcome, timeline and budget range.
